Re: Regular Session of the Joint Public Advisory Committee 05-03:
The JPAC Strategic Plan 2006-2011 – Mexico, City, 11 October, 2005.

Date: 22 August 2005

The Joint Public Advisory Committee (JPAC) will be holding its 3rd Regular Session for 2005 in Mexico City, on 11 October in conjunction with ENVIRO-PRO being held during that same week.

The main purpose of the public session will be to seek comment and input on JPAC's new Strategic Plan. We have organized a morning session with JPAC members and invited participants representing various sectors of society, to provide their views on our draft Strategic Plan. In the afternoon, we will have breakout sessions, facilitated by JPAC members where we can engage participants in a direct dialogue.

Following on previous discussions, where we have committed to working more regularly and more cooperatively with you, may I extend an invitation to you and your officials to attend this important public meeting. As we chart a new path forward to maximize JPAC's contribution to the new overall strategic direction of the CEC, your input would be both valuable and greatly appreciated.

We look forward to your participation.

Sincerely,

Jane Gardner
JPAC Chair 2005
